

POL 226 - Approaches to Political Science

<https://pol226.fall23.equezadallanes.com>

10:30-11:20am MWF

Room: Buttrick Hall, Room 211

Fall 2023

Last updated: August 18, 2023

Instructor Information

Enrique Quezada-Llanes

Email: equzada@agnesscott.edu

Office: Buttrick 315

Office hours: Thursdays 10 am - 12 pm

Course Overview

From consulting firms and social media to public policy and the social sciences, data analysis has become a central tool for how we get answers to our questions of interest. The same is true in political science, where scholars collect and analyze data to predict and explain a variety of political phenomena such as how people vote or the degree to which public policy is influenced by interest groups. In this course, you will learn the necessary programming skills and statistical inference principles to help you think critically about politics and answer important questions. Fortunately, the skills you will learn are also in demand in many industries so they may be useful in your career beyond the classroom.

Learning Outcomes

- Read and understand quantitative research and data
- Estimate and interpret the appropriate quantities of interest to answer political science questions
- Communicate results from data analysis in a clear manner
- Understand and explain fundamental concepts of statistical inference and the limitations of quantitative methods

Required Textbook

- Llaudet, Elena and Kosuke Imai. 2022. *Data Analysis for Social Science: A Friendly and Practical Introduction*. United States: Princeton University Press.

Work and Assessment

Course expectations: Students are expected to attend class and participate in class discussions and exercises. I expected you will have completed all readings prior to class and will come prepared with questions.

Course Workload: This is a 4-credit hour course, meaning that you are expected to spend 12 hours of work each week (including the 3 hours spent in the classroom). This roughly means that you will spend about 2 hours on readings for each class period, and 3 hours each week working on the problem sets (pace yourself!).

Final course grades will be assigned as follows:

A+	(97-100)	C	(73-76)
A	(93-96)	C-	(70-72)
A -	(90-92)	D+	(67-69)
B+	(87-89)	D	(63-66)
B	(83-86)	D-	(60-62)
B -	(80-82)	F	(0-59)
C +	(77-79)		

Final grades will be calculated based on the following components:

Participation (10%): All students are expected to be active participants in the class. The participation score will be determined through in-class quizzes and exercises.

- Attendance policy: Attendance is part of your participation grade, and while there is no separate grade for attendance it is a prerequisite for in-class participation. That said, to accommodate for unforeseeable circumstances, you have two *unexcused* absences that will not affect your participation grade. Please let the instructor know about any excused absences you anticipate during the semester. It is important to keep up with class material as each portion of the course builds on previous sections.

Problem Sets (40%): You will complete nine problem sets throughout the semester. These problem sets will help you practice the concepts and data analysis skills we learn in class. You will have about a week to complete each problem set. I encourage you to work together with other students, but the final product should be your own work. Problem sets are due at the beginning of the class period indicated on the schedule.

Midterm and Final Exam (25% each): The midterm and final exam will be similar in structure to the weekly problem sets. For these exams, you will be working with some

popular survey data that social scientists collect with regularity, such as the General Social Survey and American National Election Study datasets. No collaboration is permitted for the exams. However, students are allowed to use a single letter-sized sheet of hand-written notes (two-sided). Both midterm and final exams will be administered via Canvas.

Extra Credit Opportunity: There is an additional problem set you can complete for extra credit. This can add a maximum of 3.5 percentage points to your final grade.

Collaboration Policy

Learning how to analyze data can be challenging but it may be easier if you work together. In fact, I encourage you to talk with your peers about the course materials and assignments. That said, each student should do and submit their own work. Collaboration does not mean you end up with the exact same code or answer.

Communication Policy

If you have questions about class in general or about a specific assignment, you can email me or come by my office. You can expect a response within 24 hours (unless you email me on Friday). Students are also more than welcome to attend office hours, as this is time set aside specifically for you. In addition, if my office door is open, feel free to stop by. Please note that I will not be “pre-grading” assignments, but I am happy to answer clarifying questions about them either via email or, preferably, during office hours.

Regrading Policy

If a student wishes to appeal a grade, they must do so in writing within one week of receiving their graded assignment back. The student must indicate clearly what part of the assignment’s grading they disagree with, making sure to respond to the instructor’s comments in that section and making their case for why they should not have been deducted points. These requests should be done via email and the subject name should read “POL 226 Regrading request - [Name of assignment].”

Honor Code

Students are expected to do their own work and cite sources appropriately. Plagiarism will not be tolerated. In other words, students will be held to the standards of the Agnes Scott Honor System to which they agreed when enrolling at this institution. The Agnes Scott College honor code embodies an ideal of character, conduct, and citizenship, and is an important part of the College’s mission and core identity. This applies especially to academic honesty and integrity. Passing off someone else’s work (or Chat GPT’s) as your own represents intellectual fraud and theft and violates the core values of our academic community. To be honorable, you should understand not only what counts as academic dishonesty, but

also how to avoid engaging in these practices.

You are responsible for the content of any work submitted for this course. The use of artificial intelligence (AI) to generate a first draft of text or code is permitted, but you must review and revise any AI-generated text or code before submission. AI text generators can be useful tools but they are often prone to factual errors, incorrect or fabricated citations, and misinterpretations of abstract concepts. I neither encourage nor discourage their use, but utilize them with caution.

Course Accessibility and Academic Accommodations

Agnes Scott College views disabilities as an integral part of the rich diversity of our community and strives to make all learning experiences as accessible as possible. If you are a student who receives academic accommodations through the Office of Accessible Education, please schedule a meeting with me within the first two weeks of classes to discuss how your accommodations will be implemented for this course. During this meeting, you are not expected to disclose any details concerning your disability, though you may discuss these details at your discretion.

If you are a student with a disability—physical, medical, psychological, or learning-specific—and have not connected with Accessible Education to discuss your accessibility needs, please visit the [main Office of Accessible Education webpage](#) to learn more about accommodations, helpful resources and support, available through the Office of Accessible Education. Students who register for accommodations during the semester should schedule a meeting with me after accommodations have been approved by the Office of Accessible Education.

Wellbeing and Mental Health

The wellbeing and mental health of students is important; if you are having trouble completing your coursework, please reach out to the [Wellness Center](#). Agnes Scott College provides cost-free mental health services to help you manage personal challenges that threaten your personal or academic well-being. If you believe you are experiencing unusual amounts of stress, sadness, or anxiety, please contact the Wellness Center and ask about their [Counseling and Psychological Services](#).

Title IX

Agnes Scott is here to help you if you have experienced any form of sexual harassment or violence, dating or domestic violence, or stalking. Please talk to any faculty or staff member with whom you feel comfortable. Faculty and staff members want to support you and have been trained to help. They will also inform the Title IX office so that you learn about options available to you. If you do not want college administrators to know what you have experienced, you may talk to the chaplain, as well as nurses or counselors in the Wellness

Center with complete confidentiality. They will not tell anyone what you share with them unless you give your express permission. You may contact the Title IX Coordinator directly at T9Coordinator@agnesscott.edu.

Diversity and Inclusion

Agnes Scott is a diverse and inclusive community. As one of the most diverse colleges in the nation, ASC is ideally positioned to be the model of a diverse and inclusive community that society can aspire to be. Such diversity raises the intellectual quality of the classroom experience, creating a unique environment for learning to understand and navigate the challenges of our times. By studying, living, and playing together, Agnes Scott College's remarkably diverse student body hones the habits of mind, skills, and knowledge essential to ethical and innovative leadership in our increasingly heterogeneous and global society. As such, this course adheres to the principles of diversity and inclusion as integral to the Agnes Scott community and respects people from all backgrounds. As a first step, this course affirms people's decisions about gender expression and identity and will use each other's preferred names and gender pronouns at all times.

Chosen Names and Personal Pronouns

Everyone has the right to be addressed by the name and pronouns that correspond to their gender identity. Rosters do not list gender or pronouns, so you may indicate the pronouns you use so that I don't make assumptions based on your name and/or appearance/self-presentation (*you are not obligated to do so*). If you use a chosen name, please let me know. Chosen names and pronouns are to be respected at all times in the classroom. Mistakes in addressing one another may happen, so I encourage an environment of openness to correction and learning. I will not, however, tolerate repeated comments that disrespect or antagonize students who have indicated pronouns or a chosen name.

Syllabus Change Policy

This syllabus is only a guide for the course and is subject to change with advanced notice.

Course Schedule

Week 1 - Introduction

Wednesday, August 23

- *Data Analysis for Social Science* (from now on DASS). Chapter 1: pp. 1-6.

Friday, August 25

- Gary King, Robert O. Keohane, and Sidney Verba. 1994. *Designing Social Inquiry: Scientific Inference in Qualitative Research*. Princeton: Princeton University Press. Chapter 1: pp 3-19 (stop at section 1.2.2).

Week 2 - Approaches to Political Science

August 28

- Russell, Bertrand. 1912 [2001]. "On Induction." In *Philosophy of Science: Contemporary Readings*, eds. Yuri Balashov and Alex Rosenberg, 289-93. London/New York: Routledge.
- Popper, Karl. 1963 [2001]. "Science: Conjectures and Refutations." In *Philosophy of Science: Contemporary Readings*, eds. Yuri Balashov and Alex Rosenberg, 294-301. London/New York: Routledge.

August 30

- No additional reading.

September 1

- *DASS*. Chapter 1: pp. 7-14 (stop when you reach section 1.7).

Week 3 - R 101

September 4 - NO CLASS. Labor Day.

September 6

- *DASS*. Chapter 1: pp. 14-21 (stop when you reach section 1.8).

September 8

- *DASS*. Chapter 1: pp. 21-26.
- **Problem Set 1 due.**

Week 4 - How Experiments Work

September 11

- *DASS*. Chapter 2: pp. 27-38.

September 13

- *DASS*. Chapter 2: pp. 39-50.

September 15

- No assigned reading.
- **Problem Set 2 due.**

Week 5 - Working with Survey Data

September 18

- *DASS*. Chapter 3: pp. 51-54.

September 20

- *DASS*. Chapter 3: pp. 55-66.

September 22

- No assigned reading.
- **Problem Set 3 due.**

Week 6 - Working with Survey Data (cont.)

September 25

- *DASS*. Chapter 3: pp. 66-76.

September 27

- *DASS*. Chapter 3: pp. 76-97.

September 29

- No assigned reading.
- **Problem Set 4 due.**

Week 7 - Let's Make Predictions (and Midterm Exam)

October 2

- *DASS*. Chapter 4: pp. 98-107.

October 4

- *DASS*. Chapter 4: pp. 107-116.

October 6

- Midterm Exam

Week 8 - Let's Make Predictions (cont.)

October 9 - NO CLASS. Fall break.

October 11

- *DASS*. Chapter 4: pp. 116-23, 126-8.

October 13

- No assigned reading.
- **Problem Set 5 due.**

Week 9 - Observational Studies: Dealing with a Messy World

October 16

- *DASS*. Chapter 5: pp. 129-134.

October 18

- *DASS*. Chapter 5: pp. 135-147.

October 20

- No assigned reading.
- **Problem Set 6 due.**

Week 10 - Observational Studies: Dealing with a Messy World (cont.)

October 23

- *DASS*. Chapter 5: pp. 147-153.

October 25

- *DASS*. Chapter 5: pp. 153-161.

October 27

- No assigned reading.
- **Problem Set 7 due.**

Week 11 - Probability

October 30

- *DASS*. Chapter 6: pp. 162-169.

November 1

- *DASS*. Chapter 6: pp. 169-179.

November 3

- No assigned reading.

Week 12 - Probability (cont.)

November 6

- *DASS*. Chapter 6: pp. 179-183.

November 8

- *DASS*. Chapter 6: pp. 183-189.

November 10

- No assigned reading.
- **Problem Set 8 due.**

Week 13 - How Certain Are We?

November 13

- *DASS*. Chapter 7: pp. 196-203.

November 15

- *DASS*. Chapter 7: pp. 202-211.

November 17

- No assigned reading.

Week 14 - Thanksgiving Break

NO CLASS: November 20-26

- **Problem Set 9 due November 20.**

Week 15 - How Certain Are We? (cont.)

November 27

- *DASS*. Chapter 7: pp. 211-217.

November 29

- *DASS*. Chapter 7: pp. 219-229.

December 1

- No assigned reading.
- **Extra Credit Problem Set due.**

Week 16

December 4

- Review for final exam (probably).

Final exam - Date TBD

Sometime between December 8 and 13.
